What is a Capcatcher Bottle Opener and how does it work?

- The Capcatcher Bottle Opener is a handy device that opens bottles and catches bottle caps in the attached pouch.
- It works with twist-offs, too!
- We begin with a high-quality piece of select northern hardwood, handcrafted and beautifully finished in our New England workshops.
- Opener heads are heavy-plated solid steel—made to last!
- Generous-sized pouches are made of heavy clear vinyl or rich oil-tanned leather.
- Bottom of pouch features a SnapFlap® for easy emptying.

SnapFlap®

The Capcatcher Bottle Opener is available in two basic styles:

The Screw-Mount fastens to cabinets, walls, doors, decks, bars, what have you, with 2 wood screws (included).

The Magnet-Mount uses an uncommonly powerful, high energy “Mega-Magnet.” *These are serious magnets!* They really hold to the fridge when you pop a cold one! All Magnet Mount Capcatcher Bottle Openers are also pre-drilled so they can be screw-mounted too.

The Magnet-Mount is the best gift choice—it can be used either on the fridge or the wall.

Gift Boxes Available

The Capcatcher is brilliant—every family should have one!
--Kristin Foristall, Braintree, MA

Your product is excellent. I smile every time I go to the fridge and pop myself a cold one.
--Steve Garrett, Milford, CT

My fiancé and I have been searching for unique groomsman gifts. We have finally found them!
--Melisa Richie, Winter Park, FL

We love the Capcatchers and cannot wait to give them to our groomsmen...!!! What a wonderful and different idea!!!
--Mari and Armando Disandro, Clementon, NJ
